SUMMARY

Recently completed a **Professional Certificate in Data Analytics** from **PW Skills** with hands-on experience in **Python, SQL, Excel, and Power BI**. Skilled in deriving **business insights** and supporting **data-driven decision-making**. Familiar with **AWS, Machine Learning** and actively seeking roles in **Data Analytics** or **Business Intelligence**. Authorized to work in **India**.

EDUCATION

B.Com (Honours) in Financial Operations & Services | University of Lucknow | India | 2021 – 2024

- **Modules:** Financial Accounting, Taxation, Banking & Insurance, Financial Management
-

WORK EXPERIENCE

Ai Operator | Xtransmatrix | November 2025 – Present | Noida (On-site)

- **Optimized AI prompt** using **GUI-based workflows**
- **Analyzed prompt results** and refined outputs through **feedback**
- **Collaborated with stakeholders** to improve **AI responses** and **user experience**

Data Science and Machine Learning Intern | Edureka | February 2025 | India (Remote)

- Completed hands-on **internship** focused on **data preprocessing, cleaning, and feature engineering**
- Performed **exploratory data analysis (EDA)** using **statistical and visualization techniques** to uncover insights
- Implemented **regression, classification, clustering, and ensemble machine learning models**
- Tuned **hyperparameters** to optimize **model accuracy and performance**

Summer Intern | NAS Enterprises Lucknow | May 2023 – June 2023 | Lucknow (On-site)

- **Registered and filed Goods and Services Tax (GST)**, ensuring compliance with tax laws
 - **Navigated GST regulations** effectively to support accurate tax filings and audits
-

PROJECTS

Crypto Liquidity Prediction ML Project

- Built a **machine learning model** to predict **cryptocurrency liquidity** trends using **Python, Pandas, and Scikit-learn**
- Conducted **data preprocessing, feature engineering, and model evaluation** to enhance prediction accuracy
- **GitHub:** [Crypto Liquidity Prediction Repository](#)

Automated Employee Report Generation System

- Developed an **automated system** for generating **employee performance reports** using **Python and Excel**
 - Improved **reporting efficiency** by automating **data processing and visualization**
 - **GitHub:** [Employee Report Generator Repository](#)
-

LANGUAGES, SKILLS, AND CERTIFICATES

- **Languages:** **English** (Full professional proficiency), **Hindi** (Native or bilingual proficiency)
- **Skills:** **Python, SQL, Excel, Power BI, Tableau, Pandas, NumPy, Scikit-learn, TensorFlow, Flask, Machine Learning, EDA, Regression, Predictive Analytics, Data Cleaning, Data Visualization, Statistics, AWS, Git, and GitHub**
- **Certifications:** [Data Analytics Certification](#), [Master Git & GitHub](#), [Excel Bootcamp](#)
